

SYNTHETIC TEST RESUME - NOT A REAL PERSON

Candidate: Software Developer and Data Analyst

Location: Sault Ste. Marie, Ontario

Target role: Software Developer, Data Analyst, or AI Systems role

Work preference: Full-time, hybrid or in-person in Sault Ste. Marie

SUMMARY

Software developer and data analyst with experience building web applications, APIs, dashboards, machine learning workflows, and database-backed tools. Strong technical background in Python, JavaScript, TypeScript, React, Next.js, FastAPI, SQL, PostgreSQL, data visualization, ETL, machine learning, and cloud deployment. This resume is a negative-control test: it should not be forced into unrelated trades, hotel, or social-service jobs as a strong match.

WORK HISTORY

Data Analyst

Telus International, Remote / Sault Ste. Marie, ON

2023 to present

- Build SQL queries, Python scripts, and dashboards to monitor data quality and operational performance.
- Clean, transform, and validate datasets using Python, pandas, SQL, and spreadsheet tools.
- Create reports and visualizations for operations teams using Power BI and Excel.
- Support machine learning evaluation workflows, annotation quality checks, and process documentation.

Full Stack Developer

Independent Projects, Sault Ste. Marie, ON

2021 to present

- Built web applications with React, Next.js, TypeScript, Tailwind CSS, FastAPI, PostgreSQL, and REST APIs.
- Designed authentication flows, dashboard screens, data tables, file-upload workflows, and admin tools.
- Developed resume parsing prototypes, job matching demos, and automated data-ingestion scripts.
- Used Git, GitHub, Docker, Linux, and cloud deployment workflows.

Research Assistant

University of Saskatchewan

2020 to 2022

- Applied Python, R, statistics, and machine learning libraries including scikit-learn and PyTorch to research datasets.
- Prepared technical reports, reproducible notebooks, and visualizations for academic and project stakeholders.

EDUCATION

Master of Science, Biomedical Engineering

University of Saskatchewan, 2022

Bachelor of Science, Computer Science

International University, 2018

SKILLS

Python, JavaScript, TypeScript, React, Next.js, FastAPI, REST APIs, SQL, PostgreSQL, pandas, NumPy, scikit-learn, PyTorch, machine learning, data analysis, data visualization, Power BI, Excel, ETL, dashboards, Docker, Git, GitHub, Linux, cloud deployment, API integration, web applications, full stack development, software development, database design, technical documentation, statistics, research analysis.
