

SYNTHETIC TEST RESUME - NOT A REAL PERSON

Candidate: Daniel Mercer

Location: Sault Ste. Marie, Ontario

Target role: 310S Licensed Automotive Technician

Work preference: Permanent full-time

SUMMARY

Licensed 310S Automotive Service Technician with 7 years of experience in dealership and independent-shop environments. Experienced in preventive maintenance, brake service, safety inspections, mechanical and electrical diagnostics, general automotive repairs, and customer-focused service.

WORK HISTORY

Licensed Automotive Service Technician

Algoma Motor Service, Sault Ste. Marie, ON

2021 to present

- Perform preventive maintenance, oil and fluid service, brake inspection and repair, steering and suspension work, and general mechanical repairs.
- Diagnose engine, charging, starting, lighting, and other electrical faults using scan tools, multimeters, service information, and wiring diagrams.
- Complete vehicle safety inspections and document findings accurately.
- Work efficiently with service advisors and parts staff in a busy shop.
- Explain repair findings clearly and support a high-quality customer experience.
- Maintain a clean, safe, and organized work bay.

Automotive Technician

Northern Auto Repair Centre, Sault Ste. Marie, ON

2019 to 2021

- Diagnosed drivability problems and completed scheduled maintenance.
- Replaced brakes, wheel bearings, suspension components, batteries, starters, alternators, and exhaust components.
- Performed road tests and final quality-control inspections.
- Assisted apprentices with safe repair procedures and diagnostic workflow.

EDUCATION

Automotive Service Technician Apprenticeship

Sault College, 2019
